### Principal's Message:

For many of our classes, the field trips and activities continued this week (and thankfully the weather cooperated). On Tuesday, all our Grade 8 classes enjoyed exploring Byrne Creek Ravine Park, while Div. 13 had a fun day learning about the Seymour Watershed. The sunshine appeared again on Friday as all QMS classes participated in soccer skills sessions put on by the Vancouver Whitecaps.

In sports, our Grade 8 boys volleyball team began their season by hosting Byrne Creek and FRMS this week. The team is coming together nicely, and competing hard as they develop their skills with each practice and game. Looking ahead, the team travels to FRMS on Monday, and will host Cariboo Hill on Thursday. We'd love to see a great turnout of fans for next Thursday's home game (4pm start) - go Tsunami! Meanwhile, intramural floor hockey has begun, thanks to our QMSHL organizer, Mr. Rouleau. There are four teams playing in lunch hour games, namely: the Oilers, the Rangers, the Avalanche, and the Dusters.

Finally, a friendly reminder that there will be an early dismissal on Thursday (11:55 p.m.) for Collaboration Day.

Enjoy your weekend.

QMS Principal

This year we aim to develop and transfer these SEL skills so students can navigate technology and the online world. Our school learning plan is on our school website.

## QMS Problem of the Week:

### THE PROBLEM:

A diagonal is a line segment that connects non-adjacent vertices in a polygon. How many diagonals does an octagon have?

### THE SOLUTION:

Select one vertex and you can draw 5 diagonals.

If you draw 5 such diagonals for each of the 8 vertices, you will draw a total of  $5 \times 8 = 40$  diagonals. But you actually draw each diagonal twice, once from each of its ends. Therefore, there are a total of  $40 \div 2 = 20$  different diagonals.

### THE ANSWER: 20

# 10 Tips for staying safer online

- Have regular conversations about the apps they are using and the people they are connecting with; **set clear boundaries**, and even write them down.
- Depending on the age of your child, you may want them to check with you before playing new games or accepting a friend request. For children under the age of 10, we recommend their **online activities be supervised by a parent or safe adult**.
- Many children do not reach out for support because they are afraid their screen time or devices (tablet, phone etc.) will be taken away. **Make sure your child knows they will not be in trouble if they ask you for help.**
- Remind your child that **online-friends are not necessarily who they say they are**. When a child decides to chat privately or meet an online friend in person, they may consider them to be a friend, as they have likely been chatting for a while. Reaffirm the notion that anyone they do not know from real life is still considered a stranger.
- Advise your child they **should not be switching platforms** and/or add gaming friends to social media.
- **Outline which types of information should not be shared**. e.g.: age, location, personal information, pictures.
- Teach your child to **never accept gifts online** such as money, gift cards, cheat codes or admin codes from online friends.
- Explain that they should **never meet an online friend in person** without a parent or other safe adult present.
- **Create a safety plan** with your child outlining what to do if someone asks them to send sexual images or sends sexual materials to them: stop engaging in conversation, tell a caregiver or other trusted adults (define who is a trusted adult), report, and block the person who is making your child feel unsafe.
- If you notice your child is engaging in risky behaviour online, have a conversation with them about why this behaviour is unsafe and **work together to find a safer solution**.

# School Routines and Expectations:

## QMS Code of Conduct

The QMS Code of Conduct follows the guidelines of the BC Human Rights Code. QMS Staff, Students, Parents and any visitors to the school are expected to follow the Code of Conduct.

### The purpose of the QMS Code of Conduct and Code of Consequences:

- ◆ To establish and maintain a safe, caring and orderly environment for purposeful learning
- ◆ To clarify and publish expectations for student behavior at school, going to and from school, and while attending any school function or activity at any location
- ◆ To promote the values expressed in the **BC Human Rights Code** respecting the right of all individuals in accordance with the law-prohibiting discrimination based on race, colour, ancestry, place of origin, religion, marital status, family status, physical or mental disability, sex or sexual orientation or gender identity-in respect of discriminatory publication and discrimination in accommodation, service and facility in the school.

### Acceptable Behaviour for QMS Students:

- ◆ Showing Respect, Compassion and Integrity
- ◆ Respecting self, others, the learning environment and the surrounding environment
- ◆ Helping to make the school a safe, caring and orderly place
- ◆ Informing an adult, in a timely manner (in advance, if possible) of incidents of bullying, harassment or intimidation
- ◆ Engaging in purposeful learning activities in a timely manner
- ◆ Acting in a manner that brings credit to QMS

### Unacceptable Conduct for QMS Students:

- ◆ Behaviours that:
  - Interfere with the learning of others
  - Interfere with an orderly environment
  - Create unsafe conditions
- ◆ Acts of:
  - Bullying, harassment or intimidation
  - Physical violence
  - Retribution against a person who has reported incidents
  - Discrimination based on race, colour, ancestry, place of origin, religion, marital status, family status, physical or mental disability, sex, sexual orientation or gender identity (prohibited grounds set out in the **BC Human Rights Code**)
- ◆ Illegal acts, such as:
  - Possession, use or distribution of illegal or restricted substances
  - Possession or use of weapons
  - Theft of or damage to property

The unacceptable behaviours listed in the Code of Consequences are examples only and are not intended to be an all-inclusive list.

A student's medical, cognitive, social-emotional and personal profile must be considered in the determination of appropriate interventions and/or consequences. Therefore, the application of the school's Code of Conduct must take into account the student's ability to meet behavioural expectations.

Disciplinary action, wherever possible, is preventative and restorative, rather than merely punitive. The purpose of consequences for unacceptable behavior is to help students learn from mistakes and be proactive about preventing further inappropriate behaviour.

**RESPECT &  
RESPONSIBILITY**
